Training Rationale:

Public Procurement Act, 2006 and Public Procurement Rules, 2008 are the imperative procurement policy framework to ensure public trust, transparency, accountability and fair competition in public procurement (PP) practices in Bangladesh. The objective of this course is to provide advanced learning to the PP practitioners both in private and public sector. This certificate course shall be conducted by the competent mentors and trainers to advance the procurement specialists and PE's for responsible and successful procurement.

Procurement & Supply Management Lab (PSM Lab) of **InfoBit** has designed this Training course for Professionals and IEB, Dhaka Center is providing venue and a competent Training Management Committee (TMC) to accredit certification.

Course Outline:

PPR

1. Background & Overview of Public Procurement: PPA2006 and PPR2008
2. Tenderers rights and responsibilities in PPA2006 & PPR2008
3. Public procurement Process for Goods, works & Services: Tendering to Contracting.
 - a. APP, STD, NOA to Signing of Contract
 - b. Tender & Performance securities

Course Benefits

This is an advanced short course on PPR that will help the practicing participants to clarify the gray areas of tendering to contracting issues on and beyond PPR. This certificate course will benefit participants for strategic planning, budgeting and execution of fiscal procurement of goods, works and Services. Issues with deployment partners in development project procurements shall also be an important part of this training course.

Other Benefits of training:

- ❖ Increasing the knowledge of procurement process management and contract management.
- ❖ Increasing the quality to carry out responsible procurement.
- ❖ Improving the public procurement management skill.
- ❖ Increasing your ability to work as a Procurement specialist or consultant position with GOB or DP funded projects.

Who can attend?

Public procurement Stakeholder officers from mid to senior level who are already in the practice of Public sector procurement with basic PPR knowledge. Those who have completed the CPTU 21 days basic PPR training, are strongly encouraged to attend this training.
